ERCO-TECH DIRECT

TUBE, PIPE AND PROFILE

BENDING & METALWORKING MACHINERY

Ideal For... HVAC, Hydraulic Tubing and **Brake Lines**

0130G Jolly® Junior

FEATURES

- Produce high quality bends
- Bend consistently to 90°
- Bends to CLR 2.5 x Ø
- Hydraulic pump reduces hand fatigue
- Rotating outer bend arms quickly adjust to tube size
- Lightweight and compact
- High impact carrying case included

0130G Capacities & Specifications

FOR/	MERS
Ø O.D.	RADIUS
1/4"	.75"
3/8"	1.00"
1/2"	1.37"

Stainless Steel	5/8" x .065 wall

083 Medi Bender®

OF A PROJUST E

Manual Tube & Pipe Bending Machine

Requires No Electrical Power

FEATURES

- Portable bending machine with manual operation ideal for all fabricators and contractors with job site bending applications
- Bend round or square material
- Bend angles to 180°, degree wheel for repeatable bending angles
- Quick-change tooling system with multiple radii available
- Adapts to hand drill for quicker operation
- Tripod base for on-site bending (optional)

Part# 083 machine only

Pipe and tube tooling sets available online at shop.ercolina-usa.com

Degree wheel for repeatable bending angles

083 Medi Bender® Capacities & Specifications

Tube (Min.)	1/4"
(Max.)	1¼"065 wall
Pipe (Max.)	1" Sch. 5
Centerline Radius (Min.)	2 X Ø Depending material and wall thickness
(Max.)	61/8"
Degree of Bend	180°
Bending Speed	Manual
Angle Control	Degree wheel
Material Positioning Table	No
Length, Width, Height	13" x 10" x 8"
Weight	40 lbs.

All capacities based on mild grade materials; heavy wall and high tensile materials reduce machine capacity.

Consult supplier for material specifications.

070 Benchtop Model

Tube & Pipe Bending Machine

Bending... Made Simple

FEATURES

- Portable machine ideal for fabricators and contractors with job site bending applications
- Rotary dial setting for bend angle and springback
- Quick-change tooling system with multiple radii available
- Foot pedal control for hands-free operation
- Swing away counterbending die vise for easy material handling
- No hydraulic components
- Tripod base for on-site bending (optional)
- Ships with carrying case and tool kit

Pipe and tube tooling sets available online at shop.ercolina-usa.com

070 Capacities & Specifications

Tube	(Min.)		1/4"
	(Max.)		1¼"065 wall

		(Max.)	61/8"
Degre	ee of Bend		0-210°
Bendi	ng Speed		2.2 RPM
Progr	amming		Rotary Dial with LED
Voltag	ge		120V 1ph (220V available)
Lengt	h, Width, Hei	ght	10" x 13" x 18"
Weigh	nt		60 lbs.

48 Plus

Pipe and tube tooling sets available online at shop.ercolina-usa.com

Tube & Pipe Bending Machine

Practical One-Touch Control

FEATURES

- Ideal for producing consistent quality bends in pipe, tube, squares, solids and other profiles
- Easy one touch control allows any operator to program and automatically store bend angle
- Large easy to read color coded control displays all current information in real time
- Separate display of material springback for greater accuracy on a variety of materials
- Bend any angle to 180° with independent material springback compensation for each bend
- Single bending speed
- Initiate bend cycle from the control panel or included foot pedal
- Quick-change tooling system with multiple radii available
- Swing away counterbending die vise for easy material handling
- Accepts Ercolina's A40-P two axis positioning table for multiple and sequential bends
- Classic Ercolina bender design reduces floor space requirement and easily stores to save shop floor space
- Operates from single phase 220 volts for greater convenience and efficiency
- No hydraulic components

48 Plus Capacities & Specifications

Tube (Min.) (Max.)	1/4" 2"
Pipe (Max.)	1½" Sch. 40
Centerline Radius (Min.) (Max.)	2 x Ø 8%"
Degree of Bend	0-210°
Bending Speed	2 RPM
Programming	One touch bend angle control with springback
Material Positioning Table	Available
Voltage	220V 1ph
Length, Width, Height	22½" x 16¼" x 39½"
Weight	300 lbs.

All capacities based on A53 grade A 48,000 psi tensile materials; heavy wall and high tensile materials reduce machine capacity.

Consult supplier for material specifications.

HB60 Hot Shot

Tube & Pipe Bending Machine

Tube Bending Made Easy

FEATURES

- Ideal for producing tight radius consistent quality bends in pipe, tube and solids. Note: Bending square tube requires tooling modified for crush style bends for easy removal after the bend.
- Hybrid hydraulic gear driven rotary draw bend action
- Quickly bend to 180° in seconds with patented ergonomic function - no ratcheting or repositioning
- Easy set and view angle degree wheel with auto stop for repeatable bends
- Draws tube from one direction for easier sequential bending
- Swing away counter bending die vise allows easy material on and off maintaining position without secondary locking
- Patented quick change system accepts all Ercolina tooling
- Precision one-piece cast steel tooling available in multiple centerline radii accommodates a variety of materials and wall thicknesses
- One piece solid bronze counter bend die for longer tool life and rigid support throughout the bend
- Machine case engineered for strength with high section modulus design
- Bend head swivels to accommodate any size shop space
- Single or three phase electric power available

Part# HB60-M2

machine only

PATENT PENDING

HB60 Capacities & Specifications

Degree wheel for repeatable bending angles

Tube (Min.) (Max.)	½" 2"
Pipe (Max.)	1½" Sch. 40
Centerline Radius (Min.) (Max.)	2 x Ø 10.5"
Degree of Bend	0-180°
Bending Speed	1.5 RPM
Voltage – HB60-M2 HB60-T	120V 1ph 480V 3ph
Length, Width, Height	27" x 15" x 36"
Weight	290 lbs.

All capacities based on A53 grade A 48,000 psi tensile materials; heavy wall and high tensile materials reduce machine capacity.

Consult supplier for material specifications.

Convenient Single Phase Power

FEATURES

- 40mm roll shaft diameter
- Universal tooling set included with each machine
- Forged roll shafts precision ground and fitted for maximum performance and minimal deflection
- Roll shafts supported with conical steel bearings on each side of A Frame
- Heavy duty structure and rigid components for high section modulus ratings
- Two bending speeds
- Reinforced engineered mainframe design proven to outperform competitive models
- Heavy duty gearbox drives lower roll shafts
- Threaded roll shafts with micrometric flange adjustment helps eliminate spacer usage
- Control tower with foot pedal operation of roll movement
- Optional anti-twist correction system required for angle iron "Leg In" applications

Universal Pipe & Tube Notcher Grinder

Fabricators Favorite

Part# EN100 machine only

Patented quick-change roller system

Precision Notching

FEATURES

- Quickly create perfect professional notches at any angle to 60°
- One handle moves pipe or tube in and across abrasive belt simultaneously extending belt life and reducing heat (patented by Ercolina)
- Ideal for hand railing, chassis and roll cages, fences and gates, furniture frames, marine rails and arches, tubing and plumbing for restaurant and dairy
- Replaces outdated notching methods of using hole saws, end mills, grinding wheels and flame cutting
- Uses premium abrasive belts for a wide range of materials including; carbon steel, stainless steel, Inconel, chrome moly, aluminum and titanium
- Graduated vise 0-60° with vertical adjustment for offset angles

- · Patented quick-change roller system
- Converts to abrasive belt grinder with optional accessory
- Top mounted deburring surface
- Over 25 notcher rollers available
- Tool free belt changeover

Minimum Diameter	1"
Maximum Diameter	3" *
Angle Range	0-60° at 2%″ O.D.
Belt Size	4" x 76¾"
Belt Speed	100 FPS
Dust Extraction	Conventional
Voltage Requirement	220V or 480V 3ph
Motor	5½ hp 50-60Hz
Motor Speed	3650 RPM
Contact Wheel	NA
Length, Width, Height	52" x 22" x 43"
Shipping Weight	425 lbs.

^{* (}Consult factory for application information at maximum capacity.)

Notch angles to 60° in pipe or tube up to 3" in seconds, to a gap free fit ready for welding.

Scantool Grinder Models

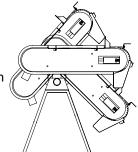

The ORIGINAL Industrial Belt Grinder

Scantool 3" and 6" industrial belt grinders have simple and practical operation and feature the following:

- Remove material rapidly without vibration
- Contact wheel provides safe consistent grinding area
- Tool free belt change allows operator to quickly match abrasive to the application
- Working height adjusts to accommodate operator and material
- Top grinding table supported by graphite pad increases versatility
- Adjustable tool rest and eye shield
- Emergency stop
- UL approved no-volt release with built in safety switch

- Five Year warranty on motor
- Detachable spark arrestor for easy cleaning
- Tool free adjustment of belt tracking
- Available with optional powered dust extraction
- Manufactured in Denmark

Grinder Model Selection

Belt travel adjustment - Easy to adjust.

Tool free quick belt change - Without removing guards.

Large surface table.

Scantool Grinding Belts

Zirconia Alumina

Zirconia is more durable than aluminum oxide, and best for medium- to heavy-material removal. Commonly used on carbon steels, aerospace alloys, nickel alloys, aluminum, cast iron, forgings, and some stainless steels.

3" Zirconia Alumina Belts (3" x 79")						
Part Number	Grit					
0217040	40 Grit					
0217060	60 Grit

0223320	320 Grit					
0223400	400 Grit					

Ceramic

Ceramic is cooler cutting and more durable than natural aluminum-based products, ceramic provides a sharp, high-purity grain. Commonly used for precision grinding of steels, hard alloys and exotic materials.
